/common/fips202.c"] --> C;
```

The diagram illustrates a file dependency structure. At the top is a gray box representing a header file: E:/pqc-engineering-ssec-23/dCTIDH/src/common/fips202.h. Below it are two white boxes representing source files. The left box is E:/pqc-engineering-ssec-23/dCTIDH/src/CTIDH/ctidh_api.c, and the right box is E:/pqc-engineering-ssec-23/dCTIDH/src/common/fips202.c. Blue arrows point from each source file box up to the header file box, indicating that both source files include or depend on the header file.
