

update\_headers

```
graph LR; A[update_headers] --> B[pip._vendor.cachecontrol.heuristics.datetime_to_header]; A --> C[pip._vendor.cachecontrol.heuristics.expire_after];
```

The diagram illustrates a function call or attribute access. A grey box labeled 'update\_headers' has two blue arrows pointing to two separate white boxes. The top white box contains the text 'pip.\_vendor.cachecontrol.heuristics.datetime\_to\_header' and the bottom white box contains 'pip.\_vendor.cachecontrol.heuristics.expire\_after'.

pip.\_vendor.cachecontrol.heuristics.datetime  
\_to\_header

pip.\_vendor.cachecontrol.heuristics.expire  
\_after
