InstallCommand.run"] --> D; C["pip._internal.commands.wheel.  
WheelCommand.run"] --> D;
```

The diagram illustrates a dependency or call relationship. On the left, there are three white rectangular boxes with black borders, each containing a Python module path and a method name. These boxes are arranged vertically. On the right, there is a single gray rectangular box. Three blue arrows originate from the right side of each of the three white boxes and point towards the left side of the gray box, indicating that each of the three methods calls or depends on the `make_resolver` function.
