

running_under_virtualenv

virtualenv_no_global

_running_under_venv

```
graph LR; A[running_under_virtualenv] --> C[_running_under_venv]; B[virtualenv_no_global] --> C;
```

The diagram illustrates a logical relationship between three variables. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'running_under_virtualenv' and the bottom box contains 'virtualenv_no_global'. Two blue arrows originate from the right side of these boxes and point towards a single gray rectangular box on the right. This gray box contains the text '_running_under_venv'. The arrows indicate that both 'running_under_virtualenv' and 'virtualenv_no_global' are inputs or conditions that lead to the state represented by '_running_under_venv'.
