

`_internal`

```
graph TD; _internal[_internal] --> resolverlib[resolverlib]; _internal --> legacy[legacy]; _internal --> resolution[resolution];
```

The diagram illustrates a package structure. A light blue rounded rectangle with a dashed border represents the main package. Inside, at the top, is the label `_internal`. Below this, a solid black border encloses a row of three elements: a blue box labeled `resolverlib`, a blue box labeled `legacy`, and the text `resolution`.

`resolverlib`

`legacy`
