

encode_multipart_formdata

```
graph LR; A[encode_multipart_formdata] --> B[choose_boundary]; A --> C[iter_field_objects];
```

A diagram illustrating the function `encode_multipart_formdata`. The function is represented by a grey rectangular box on the left. Two blue arrows originate from the right side of this box, pointing to two separate white rectangular boxes on the right. The top arrow points to a box labeled `choose_boundary`, and the bottom arrow points to a box labeled `iter_field_objects`. This indicates that `encode_multipart_formdata` utilizes both `choose_boundary` and `iter_field_objects` in its execution.

choose_boundary

iter_field_objects
