The diagram illustrates a file dependency structure. At the top is a gray box representing a header file: 'E:/pqc-engineering -ssec-23/dCTIDH/src /common/poly.h'. Below it are two white boxes representing source files. The left box is 'E:/pqc-engineering -ssec-23/dCTIDH/src /common/mont.c' and the right box is 'E:/pqc-engineering -ssec-23/dCTIDH/src /common/poly.c'. Blue arrows point from each source file box up to the header file box, indicating that both source files include the header file.
