

pip._vendor.platformdirs.android.
Android.site_cache_dir

pip._vendor.platformdirs.android.
Android.user_log_dir

pip._vendor.platformdirs.android.
Android.user_runtime_dir

user_cache_dir

```
graph LR; A["pip._vendor.platformdirs.android.  
Android.site_cache_dir"] --> D["user_cache_dir"]; B["pip._vendor.platformdirs.android.  
Android.user_log_dir"] --> D; C["pip._vendor.platformdirs.android.  
Android.user_runtime_dir"] --> D;
```

The diagram illustrates a mapping from three specific Android-related paths to a common user cache directory. Three light blue rectangular boxes on the left, each containing a path, have blue arrows pointing to a single gray rectangular box on the right. The paths are: 'pip._vendor.platformdirs.android.Android.site_cache_dir', 'pip._vendor.platformdirs.android.Android.user_log_dir', and 'pip._vendor.platformdirs.android.Android.user_runtime_dir'. The target box is labeled 'user_cache_dir'.
