/common/int32\_sort.h

```
graph BT; A["E:/pqc-engineering  
-ssec-23/dCTIDH/src  
/common/int32_sort.c"] --> C["E:/pqc-engineering  
-ssec-23/dCTIDH/src  
/common/int32_sort.h"]; B["E:/pqc-engineering  
-ssec-23/dCTIDH/src  
/common/random.c"] --> C;
```

The diagram illustrates a file dependency structure. At the top is a gray box representing a header file: 'E:/pqc-engineering -ssec-23/dCTIDH/src /common/int32\_sort.h'. Below it are two white boxes representing source files. The left box is 'E:/pqc-engineering -ssec-23/dCTIDH/src /common/int32\_sort.c' and the right box is 'E:/pqc-engineering -ssec-23/dCTIDH/src /common/random.c'. Two blue arrows point from the bottom of each source file box up to the header file box, indicating that both source files include the header file.
