```

The diagram illustrates the file dependencies for the source file `rng.c`. The root node is a gray box containing the file's path: `//wsl.localhost/Ubuntu-24.04/home/liwuen/projects_dev/pqc-engineering-ssec-23/c-code/src/rng.c`. Four blue arrows originate from this box, pointing to `rng.h`, `unistd.h`, `fcntl.h`, and `stdlib.h`. The `rng.h` box is white, while the others are gray. A final blue arrow points from `rng.h` to `stdlib.h`, indicating a transitive dependency.
