

`pip._vendor.webencodings.tests.test
_all_labels`

`pip._vendor.webencodings.tests.test
_iter_encode`

`iter_encode`

```
graph LR; A["pip._vendor.webencodings.tests.test_all_labels"] --> C["iter_encode"]; B["pip._vendor.webencodings.tests.test_iter_encode"] --> C;
```

The diagram illustrates a relationship between two test functions and a common function. On the left, there are two white rectangular boxes with black borders. The top box contains the code `pip._vendor.webencodings.tests.test_all_labels` and the bottom box contains `pip._vendor.webencodings.tests.test_iter_encode`. On the right, there is a smaller, gray rectangular box with a black border containing the code `iter_encode`. Two blue arrows originate from the right side of the top and bottom boxes and point towards the left side of the gray box, indicating that both test functions are associated with or point to the `iter_encode` function.
