

`pip._vendor.rich.console.  
Console._detect_color_system`

`detect_legacy_windows`

`get_windows_console  
_features`

```
graph LR; A["pip._vendor.rich.console.  
Console._detect_color_system"] --> D["get_windows_console  
_features"]; B["detect_legacy_windows"] --> D; D --> D;
```

The diagram illustrates the flow of data or function calls. Two source boxes on the left point to a target box on the right. The top source box contains the code `pip._vendor.rich.console.Console._detect_color_system`. The bottom source box contains the code `detect_legacy_windows`. The target box on the right contains the code `get_windows_console_features`. A blue arrow points from the top source box to the target box. Another blue arrow points from the bottom source box to the target box. A curved blue arrow points from the top of the target box back to itself, indicating a self-call or a loop.
