

Exception

```
graph BT; InconsistentCandidate --> ResolverException; ResolverException --> Exception;
```

The diagram illustrates a class hierarchy with three levels. At the top is a box labeled 'Exception'. A blue arrow points from a box labeled 'ResolverException' below it to the 'Exception' box. Another blue arrow points from a box labeled 'InconsistentCandidate' at the bottom to the 'ResolverException' box. The 'InconsistentCandidate' box has a gray background, while the others are white.

ResolverException

InconsistentCandidate
