

List

```
graph BT; Trace[Trace] -.->|stacks| List[List];
```

The diagram illustrates a stack relationship between two data structures. At the top is a white rectangular box with a black border containing the text 'List'. Below it is a gray rectangular box with a black border containing the text 'Trace'. A vertical dashed purple line connects the bottom of the 'Trace' box to the bottom of the 'List' box. To the right of this line, the word 'stacks' is written in a light gray font. A solid purple arrowhead points upwards from the dashed line towards the 'List' box, indicating that 'List' is on top of the stack and 'Trace' is below it.
