

get\_formatter\_for\_filename

```
graph LR; A[get_formatter_for_filename] --> B[_fn_matches]
```

A diagram illustrating a function call. On the left, a white rectangular box with a dark border contains the text 'get\_formatter\_for\_filename'. A blue arrow points from the right side of this box to a gray rectangular box with a dark border on the right, which contains the text '\_fn\_matches'.

\_fn\_matches
