

`pip._internal.utils.logging.  
RichPipStreamHandler.emit`

`emit`

`render_message`

```
graph LR; A["pip._internal.utils.logging.  
RichPipStreamHandler.emit"] --> C[render_message]; B[emit] --> C;
```

The diagram illustrates a call flow. Two boxes on the left, one containing the full module path `pip._internal.utils.logging.RichPipStreamHandler.emit` and another containing the method name `emit`, both have blue arrows pointing to a single box on the right containing `render_message`. The `render_message` box is shaded gray, while the others are white with black borders.
