

pip._internal.network.download.
BatchDownloader.__call__

pip._internal.network.download.
Downloader.__call__

_http_get_download

```
graph LR; A["pip._internal.network.download.  
BatchDownloader.__call__"] --> C["_http_get_download"]; B["pip._internal.network.download.  
Downloader.__call__"] --> C;
```

The diagram illustrates a function call relationship. On the left, two white rectangular boxes with black borders contain the names of calling methods: 'pip._internal.network.download.BatchDownloader.__call__' (top) and 'pip._internal.network.download.Downloader.__call__' (bottom). On the right, a gray rectangular box with a black border contains the name of the function being called: '_http_get_download'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both calling methods invoke the '_http_get_download' function.
