

`_compare_compatible`

```
graph LR; A[_compare_compatible] --> B[pip._vendor.packaging.specifiers._IndividualSpecifier._get_operator]; A --> C[pip._vendor.packaging.specifiers._version_split];
```

The diagram illustrates the internal components of the `_compare_compatible` function. It is a grey rectangular box on the left. Two blue arrows originate from its right side. The top arrow points to a white rectangular box containing the text `pip._vendor.packaging.specifiers._IndividualSpecifier._get_operator`. The bottom arrow points to another white rectangular box containing the text `pip._vendor.packaging.specifiers._version_split`.

`pip._vendor.packaging.specifiers.
_IndividualSpecifier._get_operator`

`pip._vendor.packaging.specifiers.
_version_split`
