

```
graph LR; A["pip._internal.resolution.resolvelib.candidates.  
EditableCandidate.__init__"] -- self-loop --> A; A --> B["make_install_req_from  
_editable"]
```

Diagram illustrating a function call sequence:

- A box on the left contains the text: `pip._internal.resolution.resolvelib.candidates.EditableCandidate.__init__`. A blue curved arrow originates from the top of this box and points back to itself, indicating a self-call or loop.
- A straight blue arrow points from the right side of the left box to the left side of a second box on the right.
- The second box on the right contains the text: `make_install_req_from_editable`.

make_install_req_from
_editable
