

pip.\_internal.commands.freeze.  
FreezeCommand.add\_options

pip.\_internal.commands.freeze.  
FreezeCommand.run

\_dev\_pkgs

```
graph LR; A["pip._internal.commands.freeze.  
FreezeCommand.add_options"] --> C["_dev_pkgs"]; B["pip._internal.commands.freeze.  
FreezeCommand.run"] --> C;
```

The diagram illustrates a dependency or data flow. On the left, two white rectangular boxes with black borders contain the following text: the top box contains 'pip.\_internal.commands.freeze.FreezeCommand.add\_options' and the bottom box contains 'pip.\_internal.commands.freeze.FreezeCommand.run'. On the right, a smaller gray rectangular box contains the text '\_dev\_pkgs'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both functions interact with or depend on the '\_dev\_pkgs' variable.
