

pip._vendor.chardet.jpcntx.
JapaneseContextAnalysis.feed

feed

get_order

```
graph LR; A["pip._vendor.chardet.jpcntx.  
JapaneseContextAnalysis.feed"] --> C["get_order"]; B["feed"] --> C;
```

The diagram illustrates a relationship between three components. On the left, there is a large white box with a black border containing the text 'pip._vendor.chardet.jpcntx. JapaneseContextAnalysis.feed'. Below it and to the right is a smaller white box with a black border containing the text 'feed'. To the right of these two boxes is a gray box with a black border containing the text 'get_order'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both the full module path and the 'feed' attribute point to the 'get_order' function.
