

intranges\_contain

intranges\_from\_list

\_encode\_range

```
graph LR; A[intranges_contain] --> C[_encode_range]; B[intranges_from_list] --> C;
```

The diagram illustrates a dependency or relationship between three functions. On the left, two white rectangular boxes with black borders are stacked vertically. The top box contains the text 'intranges\_contain' and the bottom box contains 'intranges\_from\_list'. On the right, there is a gray rectangular box with a black border containing the text '\_encode\_range'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both 'intranges\_contain' and 'intranges\_from\_list' depend on or utilize '\_encode\_range'.
