

pip.\_vendor.webencodings.tests.test  
\_all\_labels

pip.\_vendor.webencodings.tests.test  
\_iter\_decode

iter\_decode

```
graph LR; A["pip._vendor.webencodings.tests.test_all_labels"] --> C["iter_decode"]; B["pip._vendor.webencodings.tests.test_iter_decode"] --> C;
```

The diagram illustrates a dependency or relationship between two test functions and a common function. On the left, there are two white rectangular boxes. The top box contains the text 'pip.\_vendor.webencodings.tests.test\_all\_labels' and the bottom box contains 'pip.\_vendor.webencodings.tests.test\_iter\_decode'. On the right, there is a gray rectangular box containing the text 'iter\_decode'. Two blue arrows originate from the right side of the top and bottom white boxes and point towards the left side of the gray box, indicating that both test functions interact with or depend on the 'iter\_decode' function.
