

`pip._internal.utils.logging.  
RichPipStreamHandler.emit`

`pip._vendor.rich.logging.  
RichHandler.emit`

`format`

```
graph LR; A["pip._internal.utils.logging.  
RichPipStreamHandler.emit"] --> C["format"]; B["pip._vendor.rich.logging.  
RichHandler.emit"] --> C;
```

The diagram illustrates a dependency or call relationship. Two source functions, `RichPipStreamHandler.emit` and `RichHandler.emit`, are shown in white boxes on the left. Two blue arrows originate from the right side of these boxes and point towards a gray box on the right labeled `format`. This indicates that both `emit` methods utilize the `format` function.
