

filter

```
graph LR; A[filter] --> B["pip._vendor.pygments.filters._replace_special"]
```

A diagram illustrating a variable mapping. On the left, a gray rectangular box contains the text 'filter'. A blue arrow points from this box to a larger white rectangular box on the right. This white box contains the text 'pip._vendor.pygments.filters._replace_special'.

`pip._vendor.pygments.filters.
_replace_special`
