

`pip._internal.req.req
_install.InstallRequirement.get_dist`

`pip._internal.req.req
_install.InstallRequirement.install`

`is_wheel`

```
graph LR; A["pip._internal.req.req  
_install.InstallRequirement.get_dist"] --> D["is_wheel"]; B["pip._internal.req.req  
_install.InstallRequirement.install"] --> D;
```

The diagram illustrates that both the `get_dist` and `install` methods of the `InstallRequirement` class in `pip._internal.req.req_install` utilize the `is_wheel` function. Two light blue arrows originate from the right side of the first and second boxes and point towards the `is_wheel` box on the right.
