

`_internal`

The diagram illustrates a package structure. A large light blue rectangle with a dashed border represents the main package. Inside this rectangle, at the top, is the text `_internal`. Below this text is a smaller, solid light blue rectangle with a thick black border, representing a sub-package. Inside this sub-package, there are three elements: the text `operations` on the left, and two smaller blue rectangles with black borders on the right. The first of these smaller rectangles contains the text `build`, and the second contains the text `install`.

`operations`

`build`
