

pip.\_vendor.cachecontrol.heuristics.  
ExpiresAfter.update\_headers

pip.\_vendor.cachecontrol.heuristics.  
OneDayCache.update\_headers

expire\_after

```
graph LR; A["pip._vendor.cachecontrol.heuristics.ExpiresAfter.update_headers"] --> C["expire_after"]; B["pip._vendor.cachecontrol.heuristics.OneDayCache.update_headers"] --> C;
```

The diagram illustrates a dependency or inheritance relationship. Two source functions, 'ExpiresAfter.update\_headers' and 'OneDayCache.update\_headers', both point via blue arrows to a common target attribute, 'expire\_after'.
