

get\_installation\_error

```
graph LR; A[get_installation_error] --> B[_report_requires_python_error]; A --> C[_report_single_requirement_conflict]
```

The diagram illustrates a branching logic from a single source to two destinations. On the left, a gray rectangular box contains the text 'get\_installation\_error'. Two blue arrows originate from the right side of this box. The upper arrow points to a white rectangular box containing the text '\_report\_requires\_python\_error'. The lower arrow points to another white rectangular box containing the text '\_report\_single\_requirement\_conflict'. All boxes have a thin black border.
