

testInitAutoresetOnWraps
OnAllPlatforms

testInitWrapsOnWindows

assertWrapped

```
graph LR; A["testInitAutoresetOnWraps  
OnAllPlatforms"] --> C["assertWrapped"]; B["testInitWrapsOnWindows"] --> C;
```

The diagram illustrates a dependency or relationship between three code elements. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'testInitAutoresetOnWraps' followed by 'OnAllPlatforms' on a new line. The bottom box contains the text 'testInitWrapsOnWindows'. On the right, there is a gray rectangular box with a black border containing the text 'assertWrapped'. Two blue arrows originate from the right side of the two white boxes and point towards the left side of the gray box, indicating that both test methods rely on or call the 'assertWrapped' function.
