pip._internal.commands.freeze.
FreezeCommand.run

_dev_pkgs

_should_suppress_build
_backends

```
graph LR; A["pip._internal.commands.freeze.  
FreezeCommand.add_options"] --> C["_dev_pkgs"]; B["pip._internal.commands.freeze.  
FreezeCommand.run"] --> C; C --> D["_should_suppress_build  
_backends"]
```

The diagram illustrates a flow from two source boxes on the left to a central box, and then to a final box on the right. The first source box contains the text 'pip._internal.commands.freeze. FreezeCommand.add_options'. The second source box contains 'pip._internal.commands.freeze. FreezeCommand.run'. Both of these boxes have blue arrows pointing to a central box labeled '_dev_pkgs'. From the central box, a blue arrow points to a final box on the right labeled '_should_suppress_build _backends'. The final box has a gray background, while the others are white with black borders.
