

`_init_decoder`

```
graph LR; A["_init_decoder"] --> B["pip._vendor.urlib3.response._get_decoder"]
```

A diagram showing a function call. On the left, a gray rectangular box contains the text `_init_decoder`. A blue arrow points from the right side of this box to the left side of a larger white rectangular box on the right. This white box contains the text `pip._vendor.urlib3.response._get_decoder`.

`pip._vendor.urlib3.response.
_get_decoder`
